

To,

The Principal/Dean of all affiliated institutions

Anna University

Sub: Naalaiya Tiran Project 2022 - Offering of “PROFESSIONAL READINESS FOR INNOVATION, EMPLOYABILITY AND ENTREPRENEURSHIP” Course to all students of current VI Semester B.E. CSE, B.Tech. IT, and B.E ECE of Anna University - Faculty Registration

As part of the Naalaiya Tiran Project, Anna University is offering an EEC category MANDATORY course “HX 8001 PROFESSIONAL READINESS FOR INNOVATION, EMPLOYABILITY AND ENTREPRENEURSHIP” with 3 credits (as an extended 4-5 months Hackathon) to all the 6th semester students (of B.E. CSE, B.Tech. IT, and B.E. ECE). They will earn the credits in the 7th semester on completion of this course. This course is offered online by IBM.

For the effective implementation of this course, we need the involvement of the Principal and the faculty in three roles: a senior faculty as the Faculty Single Point of Contact (SPOC), Faculty mentors and Faculty evaluators. SPOC will ideally be one per institution. The students will work in teams of 4 members. For every 7 or 8 teams a Faculty mentor and a Faculty evaluator have to be assigned. In general, for a class of 60 students, 2 Faculty mentors and 2 Faculty evaluators have to be assigned, and they have to register on the portal : <https://careereducation.smartinternz.com/> before 23rd June 2022. A welcome mail has been sent to all the Principals from the Portal. The Principals have to register in the portal using the credentials sent in the mail.

The SPOC may be selected from the faculty mentors, but has to register with a different e-mail id for getting the appropriate privileges in the coordination activities. Faculty evaluators have to be different from the faculty mentors. The Principal has to approve the SPOC, Mentors and Evaluators in the portal after their registrations.

The information about this course shall be communicated to the students, by the faculty.

The registered faculty information shall be sent to the office of the CoE in the following format.

Number of students in B.E. (CSE):

Number of students in B.Tech. (IT):

Number of students in B.E. (ECE):
